Ganjingzi Kuangqianjie 6-1 302, Dalian, China

## SUMMARY

---

### Frontend Engineering:

- Expert with **React, Redux, Mobx, Next.js**
- Strong UI implementation using **Material UI, Tailwind CSS, Ant Design**
- Proficient with **Vue.js, Nuxt.js, Quasar Framework** and **Angular**
- Advanced experience in **Three.js, Canvas**, and **Cesium** for interactive 3D and geospatial applications

### Backend & Systems Development

- Skilled in building scalable APIs with **Express, NestJS**, and **Django REST Framework, Flask**
- Professional experience with **Go, .NET, Java, Spring Boot**, and **Node.js**
- Strong understanding of distributed systems and high-performance backend architecture

### AI Engineering

- Expert in AI/ML Frameworks: Skilled in **Mistral, Google/Flan-T5, Hugging Face, Rasa, LangChain**, and **Duckling** for building and fine-tuning state-of-the-art AI models.
- Advanced NLP & NLU Expertise: Proficient in **Natural Language Processing, Intent Detection, Corpus Creation**, and deploying **NLP** solutions using **Rasa, Hugging Face**, and custom AI models.
- Speech-to-Text & OCR Integration: Experienced in implementing **STT(Speech-to-Text)** models and **Optical Character Recognition (OCR)** for document parsing using **Google Vision** and **OpenAI**.
- Efficient Data Retrieval & Search: Expertise in **Solr** and **FAISS** for building powerful data indexing and search systems, enabling natural language queries to retrieve data.
- Deployment & System Integration: Proficient in deploying AI systems on Ubuntu using `systemctl` and service file configuration, optimizing workflows through automation and daemon management.
- GPU-based Model Fine-Tuning: Strong experience in fine-tuning models on GPU (CUDA), enhancing AI model performance for large-scale applications.

### COBOL & Mainframe Engineering

- Experienced in developing and maintaining enterprise-grade applications using COBOL within IBM mainframe environments for banking, insurance, and large-scale transaction processing systems.
- Proficient in IBM z/OS ecosystem including JCL, CICS transaction processing, and DB2 database integration for high-volume batch and online system.
- Strong understanding of legacy system modernization, integrating COBOL applications with modern REST APIs, JAVA/Spring Boot services, and distributed backend architectures.

### Data, AI & Visualization

- Dashboard and analytics development using **Chart.js** and related visualization tools
- Hands-on experience with **OpenCV** and **TensorFlow** for computer vision and ML workflows

### FinTech & Integrations

- Payment gateway integrations with **Stripe** and **Plaid**
- Experience with secure authentication, financial data flows, and compliance-aware API design

### Web3 & Blockchain

- Development with **Web3JS, Solana, Raydium**
- Smart contract interaction, wallet integrations, and decentralized application workflows

### Additional Capabilities

- Email marketing automation and integration
- Strong experience with sales-driven technical solutions and product-focused engineering

## EXPERIENCES

### Contract in UNIT9.

2019.10 ~ 2020.12 10 Orange Street, Haymarket, London

<https://unit9.com>

UNIT9 is a production studio. We focus on VR, Digital, Gaming, Innovation and Film projects. We have offices in London, NY, LA, Berlin and Florence. UNIT9 is a global production partner. We create content with love. In this company, I worked as a freelancer with Damian(CEO), Tobiasz(CTO) to build excellent web-page for this company using React, STRAPI, CMS mainly.

#### Used skills:

- React.js, CMS, STRAPI, Styled-Component
- Reactstrap, LESS.
- Contentful CMS.

### Contract in NuccoBrain

2019.11–2020.12 London, England, United Kingdom

<https://nuccobrain.com>

Nucco Brain is a buzzing visual storytelling studio based in London, US and Europe. They create stunning creative content that connects brands of all sizes with their audiences. Their strategic approach to storytelling helps brands communicate complex ideas simply, through digital content and compelling messaging.

#### Used skills:

- React.js, TypeScript, Strapi, CMS
- Sendgrid, Twilio, WebRTC, Opentok.
- Node, Express, Docker.

### Contract in DeviceCommerce

2020.12–2022.6 F-2020 Corydon AVE., Canada R3P 0N2, Canada

<https://devicecommerce.com/>

Device Commerce is an integrated business management platform for the wireless device industry. This software is built from the ground up, based on market needs, to help retailers scale their operations, increase profitability, and align their marketing efforts.

#### Recommendation by CTO

*“Jin has worked closely with my company for almost two years, and I am confident in his abilities as a Senior Frontend Developer. He completed most of his tasks on time, came up with innovative solutions for the various challenges we faced, and demonstrated his expertise on any given project. He’s a great developer and most of all a great individual. I highly recommend him for your frontend project.”*

#### Used skills:

- React.js, TypeScript, Next.js
- HandleBar.js
- I18
- Framer-motion
- Material-ui
- LCP/CLS, CDN
- SCSS

### Contract in MUSENLY VENTURES PVT LTD

2021.5–2025.7 501, Tirupati Towers, Sarojini Road, Santacruz(west), Mumbai, 400054, Maharashtra, India

<https://qrev.ai/>

My team and I developed NLP powered platform that automates the repetitive, timeconsuming tasks sales teams face, allowing them to focus on closing deals. With QRev, users can bring their own datasets (BYOD) or tap into our extensive lead database for immediate insights.

#### Used skills:

- React.js, TypeScript, Next.js
- Node.js/Express, Python, Flask, AWS S3, Nginx, MongoDB

# REPRESENTATIVE PROJECTS

---

## 1. Repair Service Platforms in Device Commerce

2020.12 – 2022.6

<https://shop.mobiletechlab.ca/>  
<https://mtl-portal.vercel.app/>  
<https://mtlrepair-service.vercel.app/>  
<https://devicecommerce.com/>

<https://mobiletechlab.ca/>  
<https://bananaservice.ca/>  
<https://geebodevicerepair.ca/>  
<https://phonephix.ca/>  
<https://blackapplecellular.com/>  
<https://nanotechmobile.ca/>  
<https://northtechcellsolutions.ca/>  
<https://reparationcellulairebsl.ca/>  
<https://wirelessrevottawa.ca/>  
[https://sourapplerepair.com](https://sourapplerepair.com/)  
<https://devicelist.ca>

<https://device-list.vercel.app/>

**These projects were built with React/Next, TypeScript** using Material UI, SASS, Styled Component, deployed via CI/CD, Nginx and Vercel.

As a repair-service platform for Mobile, Tablet, Computer, Cell Phone, and others, these projects are for commerce and trade.

## 2. Family Story in KoT SAS

2018.4 - 2020.10

<https://familystory.live>  
<https://eventstory.live>

**Recommendation from Frank Bracq (fbracq@eventstory.live):**

*I've worked closely with Jin for almost 2 years and feel fully confident in expressing my endorsement. As a React front-end developer in our company, he completed his assignments quickly and perfectly and always provided insight for a better solution. I highly recommend him for any of your React projects.*

## 3. Next.js-apps built by me for Test Version.

2021.4 – 2021.5

<https://device-list.vercel.app/>  
<https://ri-plus.vercel.app/>  
<https://metro-land-dev.vercel.app/>

As Next.js Apps, I've built these apps from scratch, and deployed in Vercel from my repository myself.

## 4. Vue.js(Nuxt, Quasar)-app

2020.5 – 2020.8

<https://chinesepod.com/>  
<https://card-swiper-quasar.vercel.app/>

## 5. Projects in QRev Company(MUSENLY VENTURES)

2021.5 – 2025.7

<https://qrev.ai/>  
<https://suparev-ai.vercel.app/>

# EDUCATION

---

## Bachelor of Computer Application

### Shenyang University of Technology

2010–2015 Shenyang, China

– Studied for and graduated Computer science.

# RECOMMENDATIONS

---

## 1. Ehidiamen Osarhemen in DeviceCommerce Company, Canada

Company CTO

Email: [eosarhemen@gmail.com](mailto:eosarhemen@gmail.com)

*Jin has worked closely with my company for almost two years, and I am confident in his abilities as a Senior Frontend Developer. He completed most of his tasks on time, came up with innovative solutions for the various challenges we faced, and demonstrated his expertise on any given project. He's a great developer and most of all a great individual. I highly recommend him for your frontend project.*

## 2. Frank Bracq in KoT SAS Company, France

Company Owner

Email: [fbracq@eventstory.live](mailto:fbracq@eventstory.live)

*I've worked closely with Jin for almost 2 years and feel fully confident in expressing my endorsement. As a React front-end developer in our company, he completed his assignments quickly and perfectly and always provided insight for a better solution. I highly recommend him for any of your React projects.*

## 3. Tobiasz Dziubinski in UNIT9 Company, United Kingdom

Company CTO

Email: [tobiasz.dziubinski@unit9.com](mailto:tobiasz.dziubinski@unit9.com)

*Hey. Jin. I've been asked to provide you with some feedback regarding our cooperation and your work so far. We believe that fast feedback is important to improve and grow as partners. :) Let me start by saying that it is a pleasure to work with you and you're obviously a very hard worker. Great!*

## 4. Angelo Plessas in Talismania, Deste Prize, Museum of Cycladic Art Company, Greece

Company Owner

Email: [angeloplessas@gmail.com](mailto:angeloplessas@gmail.com)

*Appreciate the great work delivered by Jin for my many projects! He had been very supportive throughout the project and was always available to resolve all the queries and doubts for Talismania, Deste Prize, Museum of Cycladic Art Project. He had done greatest Artist Project such as Canvas-Muscular Project.*
